Summary

Python Backend Developer with hands-on experience in building scalable web applications using **Python, Django, Django REST Framework, and SQL**. Skilled in developing **RESTful APIs**, implementing backend logic, and designing efficient database schemas using ORM. Experienced in **API integration, automation workflows, and backend system optimization**. Currently learning **AWS cloud computing** and modern backend tools, with a strong interest in building secure, efficient, and production-ready backend systems.

Experience

- | | |
|---|----------------------------------|
| Python Developer, Cerebulb India Pvt Ltd | 06/2025 – Present |
| <ul style="list-style-type: none">• Worked extensively with Django REST Framework (DRF) to design and develop RESTful APIs.• Contributed to backend architecture, API integration, and request/response optimization.• Built automation workflows using n8n, including integration with external services.• Developed a Telegram Bot enabling users to perform text generation and image generation through automated workflows.• Gained hands-on exposure to AWS Cloud Computing, including core services and deployment concepts.• Currently learning advanced AWS concepts and best practices for building scalable backend systems.• Used Git for version control and code management. | GIFT City,
Gandhinagar, India |
| Python Developer - Internship, CreArt® Solutions Pvt Ltd | 02/2024 – 07/2024 |
| <ul style="list-style-type: none">• Proficient in Python, Django, and MySQL for backend development, with hands-on experience in building robust web applications.• Efficiently designed and executed CRUD operations to streamline and enhance database performance and functionality.• Skilled in JavaScript for creating dynamic and interactive user interfaces, improving overall user experience. | Ahmedabad |

Education

- | | |
|--|-------------|
| Bachelor of degree in IT, Aditya Silver Oak Institute of Technology | 2022 – 2025 |
| | Ahmedabad |
| Diploma in IT, Khyati school of engineering | 2019 – 2022 |
| | Ahmedabad |

Skills

Programming Languages

- Python
- SQL
- OOPS

Technical Skills

- Django
- Django REST Framework
- FastAPI
- ORM
- API Integration
- JavaScript
- MySQL
- PostgreSQL

Cloud & Automation

- AWS Cloud Computing (Learning Phase)
- n8n (Workflow Automation)

Developer Tools

- Docker
- Git

Projects

Online Furniture Shopping, *An application for online furniture shopping.*

- Developed a Furniture Shopping App using **Python, Django, and MySQL** to facilitate seamless online shopping.
- Designed and implemented **Admin, Customer, and Seller** models for streamlined operational management.
- Integrated full **CRUD** functionality for efficient product management by customers.
- Implemented a secure **payment gateway** and automated **email notifications** to promptly inform customers upon successful purchase.
- Enabled Admin account verification and **PDF report generation** for data-driven decision-making.

Grocery, *An application for online grocery shopping.*

- Developed Grocery Online Shopping App with **Admin, Customer, and Seller** models to streamline operations.
- Admin Model: Handled logistics, account approvals, and date-based search, with options to export reports in **PDF and Excel formats**.
- Customer Model: Enabled **voice search**, product browsing, and order placement, with automated **invoice generation** and **email notifications** post-payment.
- Seller Model: Facilitated efficient product listing and order management.
